SUMMARY

As a recent MERN stack developer, I'm enthusiastic about crafting dynamic web solutions. With a solid foundation and a passion for learning, I'm eager to contribute to innovative projects in a collaborative team environment.

SKILLS

TECH STACK:

React.js, Redux, Node.js, Express.js, MongoDB, REST Api, OOPS, JavaScript, SQL, Python, NumPy, HTML, CSS, Insomnia, Postman, Github, Linux(CLI)

PROJECTS

Node.js, Express.js, Ejs, Multer, socket.io	File sharing application Implemented HTTP protocol for local network file transfers, setting up a server on one computer to facilitate seamless file exchange among networked computers	github.com link
Node.js, Express.js, MongoDB	REST Api have developed a RESTful API (Representational State Transfer Application Programming Interface) to facilitate communication between different software systems, enabling seamless interaction and data exchange over HTTP protocols. The API adheres to REST principles, offering a scalable, efficient, and standardized approach to building web services	github.com link
React.js	Portfolio My portfolio showcases my skills and projects using a dynamic and interactive interface built with React.js. Designed to highlight my expertise and experiences, it offers a visually engaging way for visitors to explore my work, learn about my background, and connect with me professionally. Utilizing React's component-based architecture, the portfolio ensures a smooth user experience and responsiveness across various devices	github.com link
HTML, CSS, JavaScript	Amazon clone I developed an Amazon clone using HTML, CSS, and JavaScript, replicating the functionality and user experience of the popular e-commerce platform. This project features a responsive design, intuitive navigation, and key functionalities such as product listings, search, cart management, and checkout processes. With a focus on usability and scalability, the clone offers users a familiar shopping experience while demonstrating my proficiency in front-end web development.	github.com link
HTML, CSS, JavaScript	Cookpal I created a vibrant and user-friendly hotel website using HTML, CSS, and JavaScript. This website provides an intuitive interface for potential guests to explore accommodations, amenities, and booking options. With seamless navigation and interactive features, it offers an immersive experience, enticing visitors to discover and book their ideal stay	github.com link

TRAINING

06/2023 - 05/2024	Web development Full time program for Web development	JSMIES, Bhopal
-------------------	---	----------------

EDUCATION

05/2019 - 05/2023	Bachelor of Technology Computer Science Engineering	Malwa Institute Of Technology, Indore
2018 - 2019	High School Education P C M	Vashishtha Gurukul H S School, Dewas

LANGUAGES

English - B2+, Hindi - native

SOFT SKILLS

Adaptable, Communication, Problem solving, Leadership, Time management, Teamwork,

INTEREST

Passionate about maintaining healthy lifestyle through daily workouts, showcasing discipline, dedication, and accommodation to personal wellbeing.
